Sustainability-related disclosures required for Article 8 financial products under the Regulation (EU) 2019/2088
on sustainability-related disclosures in the financial services sector

Preamble

BG COLLECTION INVESTMENTS – PICTET – WORLD OPPORTUNITIES (“the Sub-fund”) invests in other UCITS and/or UCI, including exchange traded funds (“ETFs”) and other index funds (together “Target Funds”) that contribute to the Sub-fund’s promoted environmental and social characteristics, and thus adhere to binding ESG criteria.

The Target Funds mainly invest in companies whose significant proportion of their activities are related to product and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics and other relevant economic activities.

The Sub-fund is not considering, indirectly through the investment into the Target Funds, the EU criteria for environmentally sustainable economic activities as defined under the EU Taxonomy Regulation to determine the attainment of the sustainable environmental or social characteristics that it promotes.

The Sub-fund is expected to dedicate a minimum of 70% of its net assets to investments that are aligned to the promoted environmental and social characteristics, being Target Funds qualified under Article 8 or 9 of SFDR.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-fund.
